EPICUREANISM

DOWNLOAD

Taylor Francis Ltd, United Kingdom, 2009. Paperback. Book Condition: New. 212 x 138 mm. Language: English . Brand New Book. The Epicurean school of philosophy was one of the dominant philosophies of the Hellenistic period. Founded by Epicurus of Samos (century 341-270 BCE), it was characterized by an empiricist epistemology and a hedonistic ethics. This new introduction to Epicurus offers readers clear exposition of the central tenets of Epicurus philosophy, with particular stress placed on those features that have enduring philosophical interest and where parallels can be drawn with debates in contemporary analytic philosophy. Part 1 of the book examines the fundamentals of Epicurus metaphysics, including atoms and the void, emergent and sensible properties, cosmology, mechanistic biology, the nature and functioning of the mind, death, and freedom of action. Part 2 explores Epicurus epistemology, including his arguments against scepticism and his ideas on sensations, preconceptions and feelings. The final part deals with Epicurus ethics, exploring his arguments for hedonism, his distinctive conceptions of types of pleasure and desire, his belief in virtue, his notions of justice, friendship and his theology. O Keefe provides extended exegesis of the arguments supporting Epicurus positions, indicating their strengths and weaknesses, while showing the connections between the various parts of his philosophy and how Epicureanism hangs together as a whole.
