Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Chemistry of India Rubber: Including the Outlines of a Theory on Vulcanisation In undertaking, at the request of the publishers, to write this book, the chief inducement to me was the hope of arousing the interest of chemists and technologists alike in the study of the scientific aspects and problems of the remarkable class of substances known as india rubber, the very name of which would seem to suggest that our present day knowledge of them consisted chiefly in the fact that they may be used for erasing pencil marks. The intention in the first instance was to deal, in the following pages, simply with the analytical methods, which are almost exclusively the work of R. Henriques, more particularly as regards the rubber substitutes so-called, and my own researches, chiefly concerning india rubber itself and the vulcanisation problem. This refers to work done within the last ten years. Before that time india rubber analysis, if it existed at all, was unknown to the outside world. But I discovered very soon that a mere compilation of analytical methods could at best only claim a very limited technical interest, and only point the way to obtaining a number of statistical data respecting india rubber and its manufactures, without affording any solid basis for their subsequent interpretation. This might have sufficed for those who simply want to do india rubber, but would have rendered the work almost worthless to those who hereafter may feel inclined to turn their attention to a field of inquiry equally fascinating in its chemical, physical, physiological, and technical aspects. I resolved, therefore, to enlarge the scope of the work by the introduction of...
