Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A national Designee Standardization Team (DST) was chartered to establish a single, standardized, national management handbook for manufacturing, engineering, and maintenance designees. As a result, the DST evaluated new and existing criteria for training, oversight, renewal, and termination procedures for incorporation into this order. On the basis of a national evaluation conducted in 1998, the DST determined that it was not necessary to make significant changes to the existing processes. The primary goals of designee management are safe aircraft, continuous improvement, and process standardization. This order establishes the Federal Aviation Administration (FAA) procedures to be used by the Aircraft Certification Service (AIR) and Flight Standards Service (AFS) for managing the FAA s representatives of the Administrator (designee) program. In addition, this order provides geographic restriction procedures and authorized designee functions. These procedures are designed to ensure they are applied in an unbiased manner to all qualified private persons. Specific designee procedures covered in this order include the following areas: a. FAA roles and responsibilities. b. Initial selection and appointment. c. Orientation, including designee authority and responsibilities. d. Training. e. Oversight. f. Renewal. g. Termination and appeals.
